

**Declaration of decontamination – Customer**

Returned goods are all medical products, devices or instruments that are sent back to us, for example due to a complaint or a repair request, regardless of whether they are new or used.

As an employer, we have a responsibility for the safety and health of our employees. For this reason, we must assume potential contamination by, for example, blood, tissue, bodily substances, or other bodily fluids with every returned item. In order to protect both, your employees and ours who come into contact with the returned goods as far as possible, we ask you to complete the declaration below and enclose it with the goods when returning them.

If you have any questions, please do not hesitate to contact us. Please contact your contact person or speak to your responsible sales representative.

Item description:

Item number/REF:

LOT number:

**The attached product meets the following criterion (please check as appropriate):**

<input type="checkbox"/> Goods are unused/not contaminated: The item has not been in contact with blood, tissue, body substances or other bodily fluids. This is confirmed by the signature (see below).
